July 6, 2017

Dear McComb Panther Athletes and Parents:

McComb Family Dental is excited to provide athletic mouth guards for the McComb Panthers football and volleyball teams for the upcoming season. The mouth guards will be provided to you **for a nominal fee of \$10.**

If this is your first year playing, or if you need a new mouth guard because the one we provided last year has been lost or damaged/worn, we are happy to make a custom mouth guard for you! If your mouth guard from last year is still in good condition, you should be able to wear it again for the 2017 season.

We have built time into our schedules to take impressions for your customized mouth guard. It is NOT necessary to schedule an appointment. However, if you are not available to come during one of these scheduled times, the mouth guard will be charged at our normal mouth guard rate.

Simply come to our office during one of the following times:

Thursday, July 13 at 7:30 am

Tuesday, July 18 at 7:30 am

While over-the-counter mouth guards are available in retail stores, customized mouth guards are proven to be more comfortable and safer. A custom mouth guard is more effective at absorbing and spreading the impact of a blow to the face, significantly decreasing the potential for jaw fractures, facial lacerations, concussions and other injuries.

We look forward to working with you to protect your smile, and Good Luck this season!!

Sincerely,
McComb Family Dental
